1	Giuseppe Maxia	We are constantly testing everything related to MySQL world and MySQL Maestro is, so far, the best tool we have tried.
2	Andrew Maclean	I am really quite impressed with the software. You and your people are doing a wonderful job. I actually have spent a while researching PostgreSQL admin/code generators and yours seems to fit our needs nicely. Your interface is beautiful.
3	Piter Jason	I wanted to take this opportunity to thank SQL Maestro Group for providing me the tools to succeed. I have no doubt that without them I would have failed to do my job. I am proud that I have suceeded. Thank you.
